

P-B & E Summer Camp

Project-Based & Enrichment

Educational Coaches has refined our summer camp! We now offer a full day camp!

The Project-Based 8:00-12:00 camp is for rising 3rd-8th grade! Enrichment camps are for a variety of ages/grade levels. Come join us for summer learning fun!

All summer camps are hands-on, project-based and taught by licensed, certified teachers!

REGISTER EARLY AS SPACE IS LIMITED TO 10 STUDENTS

Lego Robotics Camp (June 24-27): This engineering-based camp is one of our most popular camps every summer! Students will use Lego Mindstorm robotics to build robots and learn how to incorporate technology in order to get their robots to move and even do a few tricks! **Grades rising 3rd – 8th.**

Writing Camp (July 8-11): Our writing camp is perfect for students who may need more guidance with their writing or for students that enjoy it! Utilizing the 6+1 Traits of Writing, this project-based camp is sure to bring out the best writer in every student! **Grades rising K – 8th.**

Math Camp (July 15-18): Math camp is also geared for our students that need a little extra help and will challenge those that pick it up easily! Our licensed-certified teachers have super fun activities planned for this camp that is guaranteed to make math more fun! Focus for rising third through fifth grade is on understanding the concepts behind multiplication. **Grades rising K – 8th.**

STEM Camp (July 22-25): Science, Technology, Engineering, and Math. This is a great enrichment camp for our students that are looking to be challenged in the following areas! Students will learn how all these subjects integrate together by completing a STEM project! **Grades rising 3rd – 8th.**

Coding Camp (July 29-August 1): Basic coding has become an essential skill for grown-ups and children alike. The benefits of picking up this skill include, learning how to build websites and games, and refine their design, logic, and problem-solving skills. It also allows them to express their creativity. **Grades rising 3rd – 8th.**

Registration

Student's Name: _____

Student's Grade (2018-2019): _____
