

Math Prep: Multiply Your Success

STAY ON PACE FOR THE 2020-2021 SCHOOL YEAR!

Due to school closures in mid-March, school systems may not be able to present all the math content as planned. The cancelation of summer school this year also poses a problem for students who need extra review. Since math is cumulative, having an opportunity to learn and understand all the material from this school year will be a key to success for next year. Math Prep will provide access to this content, as well as help your child review previously learned concepts. With Math Prep, your child will start the new school year fully prepared.

Highly qualified teachers will provide engaging instruction for grades K-2, 3-5, 6-8, Algebra I, Geometry, and Algebra II. Your child can attend all 6 classes, or you can pick the weeks that work best for you (see back of form for dates and times). Classes will meet once a week for two hours. The cost is \$75 per session or \$450 for all 6 sessions. Discounts are offered for prepayment or for military families. Payment in advance holds your child's place in this new and exciting Math Prep summer camp.
